BoF Chairman Wood and Board members

Re: RC 024 Herring

Dear Chairman Wood

There is value to the State of Alaska and the fishing industry to review the access to the Herring resource that is underutilized. As outlined in RC 024 establishing a working group consisting of BoF,ADF&G, CFEC, processors and harvesters has the potential to make recommendations to the respective bodies to implement changes needed. The harvesters should have representation from the Roe and F&B herring permit holders. A possible composition:

- 2 BOF members
- 1 ADF&G
- 1 CFEC
- 1 F & B Herring permit holder
- 2 Roe Herring Sein permit holder
- 1 Roe Gillnet Herring permit holder

Thank You
Stosh Anderson
