

This RC recommends a change to language in Proposal 166 pertaining to area, and clarifies language related to “artificial fly” as quoted from the ADFG Sportfishing Regulation Booklet (“handy dandy”).

PROPOSAL 166 Amended to read as follows;

Section 5 AAC 57.121 - Special provisions and localized additions and exceptions to the seasons, bag, possession, and size limits, and methods and means for the Lower Section of the Kenai River Drainage Area

(F) from May 1 – **July 1** [July 31], in the following waters only one unbaited, single-hook, artificial fly may be used:

(iii) that portion of the Kenai River from ADFG regulatory markers located at the outlet of Skilak Lake, downstream to ADF&G Marker located about one mile upstream of the Lower Killey River confluence.

For the purpose of this regulation the definition of an “artificial fly” is defined below;

ARTIFICIAL FLY: A fly which is constructed by common methods known as fly tying, including a dry fly, wet fly, and nymph, or a bare single hook that is free of bait as defined in 5 AAC 75.995. Materials and chemicals designed and produced primarily to cause flies to float or sink may be used on artificial flies.

[ARTIFICIAL FLY – MEANS A FLY WHICH IS CONSTRUCTED BY COMMON METHODS KNOWN AS FLY TYING, INCLUDING A DRY FLY, WET FLY, AND NYMPH, WHICH IS FREE OF BAIT AS DEFINED BELOW. MATERIALS AND CHEMICALS DESIGNED AND PRODUCED PRIMARILY TO CAUSE FLIES TO FLOAT OR SINK MAY BE USED ON ARTIFICIAL FLIES.]
