Welcome to Glennallen, Alaska. This is where my ancestors hunted, fished, and gathered foods.

1. Cultural - grew up hunting & fishing, picking berries at the same time.
2. Afraid to hunt - too many weekend warriors
3. Traditions -
4. Community hunt
   - Locking tags
   - May be doing separate hunts for the Copper Basin people - non-native & native
   - Too many out of area hunters over take our hunting grounds
   - Would like to see less use of ATVs and other off road motorized machines, scars game off, tears up the ground, less sustainable
   - Tired of mentioned food for the moose & caribou all because of ATV

- Online reporting not working, even the mail reporting.
