

PROPOSAL 138 – 5 AAC 85.045. Hunting seasons and bag limits for moose. Extend the resident, fall season for moose hunting in Unit 17A as follows:

... Unit 17(A) 1 bull per regulatory year, only as follows:

RESIDENT HUNTERS: 1 bull by registration Aug. 25–Sept. [20] 25 permit only; or (Subsistence hunt only) 1 antlered bull by Dec. 1–Jan. 31 registration permit; (Subsistence hunt only) during the period (To be announced) Dec. 1–Jan. 31, a season of up to 14 days may be announced by emergency order

NONRESIDENT HUNTERS: No open season. ...

What is the issue you would like the board to address and why? Extend the fall moose season in Unit 17A by five days for residents. The amount of moose traffic during those days have increased. At the end of the current season, there is a slowdown of moose. Once the current season closes, there is an increase of the moose within the unit, this is the reason for the increase of an additional five days to the fall moose hunt.

PROPOSED BY: Traditional Council of Togiak (HQ-F17-008)
