

PROPOSAL 144

5 AAC 85.045 Hunting seasons and bag limits for moose.

Shorten the antlerless moose seasons in Unit 20A and 20B as follows:

Close this season on November 30th.

What is the issue you would like the board to address and why? The harvesting of antlerless moose in December, January and February. You are causing additional stress on moose that are going into the winter. It also allows bulls that have dropped antlers to be harvested in areas with antler restrictions.
