III. Introduction of Guests: Al Barrette (BOG), Karen Gordon, Jen Yuhas
Fish & Game Staff Present: Nissa Pilcher

IV. Comments

Chair Comments: Would like to address the Copper River dipnet fishery under Old Business tonight. Reiterates importance of patience conducting this meeting by teleconference.

Vice Chair: absent

Trapping: none

Game: none

Fish: none

AC Member Comments: none
Public Comments: Karen Gordon voiced support of FWS attempt to prohibit domestic sheep and llamas from ANWR in order to protect wild ungulate populations.

V. Approval of Previous Meeting Minutes: approval of April 8, 2020 minutes by unanimous consent

VI. Approval of Agenda: approved by unanimous consent

VII. Old Business:

Transfer of unused commercial allocation of salmon on the Copper River to personal use fishery: Mike Tinker says first available information from first commercial opener (tomorrow) will be available by this Friday. No sonar counts are available yet. Without sonar data, there is little that can be done at this point other than general recommendations. Virgil Umphenour asked about placing test wheels in the river. Mike Tinker said that due to ice in the river there is no date for putting wheels in. Gale Vick believes that if we delay action on this it will delay any potential emergency order to open personal use fishery. Virgil Umphenour stated that we do not yet know how many commercial fishermen will be fishing, so we do not have sufficient information to base a request for an emergency order on. The commercial fishery is scheduled to open as usual, but there is no way to predict participation yet. Kirk Schwalm has authority to write a letter on this based on the vote at the last AC meeting. Unless the AC chooses to go a different direction, he can proceed with this if necessary. Virgil Umphenour believes that low fish prices and quarantines reducing restaurant demand will result in lower commercial fishery participation. Gale Vick asks that action on this be deferred to the Fish Subcommittee. Kirk Schwalm suggested that this would be possible but that the subcommittee meeting would need to be properly noticed. AC concurs that Kirk Schwalm should proceed based on guidance from last month’s meeting.

VIII. New Business:

F&G Staff Reports: none

Comment on BOG Special Meeting Regarding Spring Bear Hunts Proposals: BOG has proposed alternate year opening in Unit 9 and transfer of permits to a future year in remaining affected units. Kirk Schwalm supports both proposals if biologists support the alternate year opening and to mitigate economic impact on guides of cancelled hunts this year. Al Barrette states that the Department comments indicate that they believe the changes are sustainable. Statements in support from AC members as long as they are sustainable. AC supports both proposals by unanimous consent.

I. Call to Order: 5:10 pm by Paul Chervenak, Chair

II. Roll Call
Members Present: All by phone
Paul Chervenak, Chair               Conrad Peterson
Julie Kavanaugh, Vice Chair         Melissa Berns
Theresa Peterson, Secretary         Nathan Rose
Andrew Finke                        Kevin Adkins
Patrick O’Donnell                   Oliver Holm

Members Absent (Excused):
Roland Ruoss

Members Absent (Unexcused):
Randy Swain                        George Weaver
Albert Tyler Shcmeil               Ronald Kavanaugh
Danny Clarion                      Alexus Kwachka
Duncan Fields

Number Needed for Quorum on AC: 8

List of User Groups Present:
Big Game/guide                     Concerned Citizen
Southend Setnet                    Small Boat/Herring/Crab
Trawl                              Subsistence
Port Lions                         Old Harbor

Fish and Game Staff Present:
Jackie Keating, Biologist
Nate Svoboda, Biologist
John Crye, Biologist

Guests Present:
Ted Spraker – Board of Game
Al Barrette – Board of Game
Larry Van Daele – Board of Game
III. Approval of Agenda
Move to approve: Oliver Holm, 2nd Julie Kavanaugh
Passes 10-0

IV. Approval of Previous Meeting Minutes

VI. Public Comment - N/A

VII. Old Business - N/A

VIII. New Business

Proposal 1 - (Unit 9 Brown Bear Season change)
Move to adopt Julie Kavanaugh, 2nd Oliver Holm
Passes 10/0

- Unit 9 is a registration hunt primarily sought by trophy hunters.
- At present, there are approximately 78 guides registered.
- The proposal seeks to mitigate financial impacts from COVID-19 related travel restrictions and provide opportunity to recoup a portion of lost revenue. Bear hunts are of great economic value to the State of Alaska through the permitting process as well as critical income for guide services and support industries such as air charters.
- The proposal seeks to provide opportunity for hunters to reschedule their lost hunt due to pandemic circumstances beyond their control.
- The committee recommends not providing additional guiding opportunity for guides not registered for the area for the spring of 2020, only those guides who were registered for the spring of 2020 would be able to participate in the spring of 2021.
- As the Spring season is an every other year hunt, it may work to move lost opportunity to 2021. This would mean a hunt in the Fall of 2021 as well as a Spring hunt in 2022 to get back on the current hunting cycle.
- The committee deems it necessary to look at biological ramifications, if any, of having three seasons in 13 months.
• Probably a very low resident harvest this spring. (harvest data will be available by BOG meeting) Bears not harvested by non-residents this spring will be available.
• It is difficult to gauge how many hunters will be able to reschedule and effort may be less than anticipated for a 2021 Spring season.
• The sows that are not harvested this Spring may contribute to the bear population with cubs this year.
• It is important to factor in biological and conservation concerns, if there are no identified concerns, members of the Kodiak AC support the proposal moving forward to provide economic opportunity which was lost due to the pandemic.
• This is a one-time action in response to a crisis situation and the proposal process seeking relief to address an extreme situation is not expected to continue nor set a precedence for subsequent actions.

Proposal 2: (Transfer of Brown Bear drawing permits)
Move to adopt Theresa Peterson, 2nd Kevin Adkins
Passes 10/0

• The units under discussion in the proposal include unit 8 and other units, Kodiak AC comments are focused on unit 8.
• This is a drawing hunt with a minimum of 60% of tags drawn going to Alaskan residents. The drawing odds are low for this hunt, sometimes just a 1% chance and the trip may be a trip of a lifetime.
• The proposal seeks to mitigate the tremendous loss, due to COV 19, of hunter opportunity to those having successfully drawn a tag. Additionally, some potential opportunity to the State of Alaska and bear guide services to make up foregone income.
• There are several methods to consider providing bear harvest opportunity to partially make up for the loss:
  o May allow foregone hunts to be added back each year over the course of 3 years. If this is done, the Committee recommends no more than 1/3 in any one year.
  o There is a concern with moving additional hunters into the field on top of subsequent hunts as this could result in a lower quality of hunt with potential overcrowding which also would probably result in a higher sow harvest.
  o Could allow all unused 2020 drawing permits to go into a single year.
  o May work to roll successful non-resident permit drawees to 2021. For those not able to participate in 2021, waive the inability to hold the same drawing permit in 2 consecutive years, so that they may reapply for 2022.
  o Could move this year’s resident spring hunt winners, who did not pick up their permit, to 2022. This would prevent any winners from 2021, which
have already been drawn, from being displaced. You could also have a limited draw for those 38 drawing permits that were picked up.

- Could move this year’s resident spring hunt winners, who did not pick up their permit, to 2021. Then move successful 2021 resident hunt permit winners to 2022. This would reduce the time waiting to hunt for the 2020 permit holders but eliminate the chance for a limited draw of used 2020 permits.
- Any action should only include a Spring harvest, there are concerns with increase in sow harvest if any foregone hunts were moved to a Fall season.
- It will be difficult to make up all lost hunts and biological concerns of increased sow harvest must be factored in.
  - This is a one-time action in response to a crisis situation and the proposal process seeking relief to address an extreme situation is not expected to continue nor set a precedence for subsequent actions
