

**PROPOSAL 102**

**5 AAC 85.020. Hunting seasons and bag limits for brown bear.**

Lengthen the season for brown bear in Unit 14C Remainder as follows:

Unit 14C, Remainder

Residents and Nonresidents

One bear every regulatory year **Sept 1 - June 15** [Sept 1 - May 31]

**What is the issue you would like the board to address and why?** Unit 14C Remainder is remote and at times, snow conditions don't allow access until later in the spring season. There appears to be a VERY healthy population of brown bears in this area and an additional two weeks of season does not seem to be a big ask. While hunting black bears in early June but seeing mostly brown bears, it would be nice to be able to attempt to take one.

**PROPOSED BY:** Landon Albertson
