

PROPOSAL 168

5 AAC 85.065. Hunting seasons and bag limits for small game.

Reduce the bag limit for harlequin duck for Units 7 and 15 as follows:

Harlequin duck: 1/day, 2 in possession

What is the issue you would like the board to address and why? Anecdotal and undeniable evidence attests to a drastic decline in sea duck numbers in Kachemak Bay in recent history. Given the three-year delay in addressing management issues in Units 7 and 15 it would be prudent to address conservation concerns conservatively. In lieu of any current accurate data of population trends we suggest that a bag limits on some sea ducks be reduced.

PROPOSED BY: Homer Fish and Game Advisory Committee (EG-F22-061)
