

PROPOSAL 73

5 AAC 85.030. Hunting seasons and bag limits for deer.

Reduce the bag limit for deer in Unit 8, Remainder as follows:

In the Remainder of Unit 8, reduce the bag limit to two deer per year for residents and one deer per year for nonresidents.

What is the issue you would like the board to address and why? Kodiak Island deer populations are very low and depressed after two consecutive hard winters in 2019-2020 and 2020-2021.

There are not enough deer for people, especially local Kodiak Island residents to get what they need for eating.

I suggest that the bag limit for Sitka black-tailed deer in Unit 8 be reduced to two deer a year for Alaska residents and one deer a year for nonresidents.
