Proposal 73

RC070

21 March 2023

Alaska Board of Game  
P.O. Box 115526  
Juneau, AK 99811

Dear Board of Game,

In regards to proposal 73 reducing non resident deer tags to one buck.

As one who has hunted Kodiak as a Traditional Bowhunter multiple times this proposal fails to consider the ethical and restrained hunter. Kodiak has been a promised land for those with Longbow and Recurves. Multiple tags and buck or doe made for a full and great experience to those who are pursuing sport. In addition those like myself, blue collar, cannot justify such a journey and expense under such limitations of Proposal 73.

Consider for the sake of the Restrained and Sporting hunter the option of 2 tags for Longbow and Recurve hunters. Such actions would allow others to take the opportunity of an additional tag if so desired. A doe is a trophy for a traditional bowhunter. Perhaps allowing the sporting hunter an either sex tag would persuade such a journey.

If conserving deer numbers is imperative by all means do what is best for the game. It is of no interest of mine to harm what should first be valued and protected.

Regards,

Jordan T. Alvis
