

## Note for proposal

# 203 Hi my name is Jesse Kelly. I am 36 years old born and raised in/ near Soldotna Alaska. I had an accident racing motocross in May of 2020 that has left me paralyzed from the chest down. Proposal 203 would allow people that are physically disabled like me a better opportunity of harvesting a moose. As of right now there are no moose hunts that are specifically for physically disabled individuals in Alaska. If this proposal is passed it would allow the disabled hunting community a better chance at harvesting a moose while cutting back on the risk of running into a dangerous moose on a public trail in Kincaid Park.

I have been putting in for the any bull moose hunt that is available in the caribou hills for the passed few years because that hunt is more accessible for me with all of the trails and luckily I have friends and family with cabins in that area. I have not drawn a tag for that hunt yet but have been hunting up there for the general season. More hunting opportunities that are accessible would be greatly appreciated by me, my family, and I'm sure anyone else with a physical disability like the one that I am living with. Thank you for your time and for listening to this proposal!!!!
