

Clarification on Eagle Fish & Game Advisory Committee's actions and intent on proposals 112 and 122 during the Eagle AC's February 27th, 2024 meeting

Meeting minutes can be found in AC006

Submitted by Karma Ulvi – Eagle AC

Proposal 112- In our meeting I feel there was some confusion with this proposal as we did not want to oppose Limiting Non-Resident Hunters of the Forty Mile Caribou Herd since the numbers are low. and I am not sure what happened but off the record I spoke with our AC Members and we Do Support Limiting Non-Resident Hunters and Guiding. We need to cut back on the amount of animals being taken and put subsistence needs a priority.

Proposal 122 we also did oppose lengthening the wolf hunting season in Units 12 and 20 E by approximately six weeks to the end of June 15- we know that fur that late into the summer is not high quality and cannot be used for sewing and making things. These animals would be killed for no reason but to kill them.
