

Submitted by Dan Montgomery Comments and language for Proposal 117

To clarify Proposal 117's intent. I would like the Dept. to create a separate draw permit hunt Number for the Tok Area draw permits for non-resident guided hunters if this proposal is carried. They currently apply under the same permit number DS 102. I suggest using the number DS 302. It is not used anywhere else. It would read as follows:

12, 13C, and 20d,

Tok Management Area DS 302 1 permit

Non-Residents Guided

Only

If the permit numbers increase in the future they would also create separate hunt numbers for both hunts and the 2nd degree of kindred hunter if there is one.
