Re: Resident Hunters of Alaska amendment of support for Proposal 2

Chairman Burnett and members of the board,

Our Resident Hunters of Alaska (RHAK) public comments are PC 468. We would like to amend our support of Proposal 2, to limit resident caribou hunters across the Western Arctic Caribou herd's range to 4 caribou per year, only one of which may be a cow.

We support Proposal 3 if it includes Units 22, 23, & 26A. We no longer support the inclusion of Units 21D remainder, 24B Remainder, 24C, and 24D. As the WACH migrations have changed, we don't believe these units should be a part of these new restrictions.

Thank you,

Mark Richards

Executive Director Resident Hunters of Alaska
