

ALASKA BOARD OF GAME

Delegation of Authority

96-BOG-106

Under AS 16.05.270, the Board of Game delegates to the commissioner of the Department of Fish and Game the authority to amend, repeal or adopt regulations, including emergency regulations, and to make permanent the changes to 5 AAC 92.033 made by the Board at the October 1996 meeting in Sitka, Alaska. This delegation is based on information from the department that the public notice of the October 1996 meeting did not contain specific language about the Board addressing public safety in its meeting, as required by the Administrative Procedures Act. Emergency regulations are now necessary because permit issuance starts January 1 of each year and public safety, especially at airports, may be compromised if permits cannot be issued.

This delegation expires April 1, 1997.
