Birds of Anchorage, Alaska CHECKLIST

The Anchorage area offers a surprising diversity of habitat from tidal mudflats along the coast to alpine habitat in the Chugach Mountains bordering the city.

PUBLISHED: 2014

CHECKLIST KEY

- Very Common: Easily found in the right habitat and season
- **Common:** Found in the right habitat and season
- **Uncommon:** Found, with persistence, every year in the right habitat and season
- Rare: Seen in most years, but in small numbers
- Casual: Occasionally seen, but not every year
- N Documented nesting
- w Listed on the Audubon Alaska WatchList of declining or threatened species
