**~RENAME existing AWC Stream #212-20-10020 to "Martin River (\*South)" and existing AWC Stream #212-20-10040 to "Martin River (\*North)" to help distinguish between the two water bodies.**

**Comments:**

Adjacent AWC Stream drainages #212-20-10020 and #212-20-10040 are both named "Martin River".

The southerly one drains Martin and Little Martin Lakes and the northerly one starts at the toe of the Martin Glacier. Hydrography is adjacent to the Copper River delta and has likely seen significant natural movement over the years, maybe separating what was once one drainage into two.

Rename #212-20-10020 to "Martin River (\*South)" and #212-20-10040 to "Martin River (\*North)" to help distinguish between the two water bodies.
