coho salmon (x11)	06/14/2023		✓		✓

~ADD new AWC Stream #182-80-10100-2005-3014-4011 with COHO salmon REARING.

Comments:

On the supporting overview map (AWC_nominations_yakutat_overview_area) the 3 proposed additions to the AWC for the Yakutat area are labelled 6996_1, 6996_2, and 6996_3. The streams are previously unmapped and connect to AWC stream 6996. The associated package file should contain a shapefile showing unmapped stream location for all three nominations. All data was collected using minnow trapping effort from permit no. SF2023-142. All nominations will have an overview map, photos of fish in hand and a shapefile package.

6996_1: Minnow trapped for 1 hour soak. 11 young of year coho were observed at upper reach.

Coordinates (Lat,Long): Upper(139.705340735710,-59.5167277382) Lower(139.696168033852,-59.5101807593)
