~ADD new AWC Stream #182-80-10100-2005-3014-4007 with COHO salmon REARING.

Comments:

On the supporting overview map (AWC_nominations_yakutat_overview_area) the 3 proposed additions to the AWC for the Yakutat area are labelled 6996_1, 6996_2, and 6996_3. The streams are previously unmapped and connect to AWC stream 6996. The associated package file should contain a shapefile showing unmapped stream location for all three nominations. All data was collected using minnow trapping effort from permit no. SF2023-142. All nominations will have an overview map, photos of fish in hand and a shapefile package. Data collected by US Forest Service, Yakutat Ranger District.

6996_3: Minnow trapping- 1 hour soak. 4 juvenile coho observed.

Coordinates (Lat,Long): Upper(139.713868853232,-59.5133820175) Lower(139.7089575,-59.5033839)
