This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.

\*Observations in this nomination also provide supporting information for Chinook salmon rearing in AWC Stream #192-41-10100-2050 "Odor Creek", however only one (1) individual was documented which does not meet the minimum standard to add to the AWC.
