IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments

Tyler Polum, ADF&G and I observed juvenile coho salmon in an unnamed tributary to Rough Creek (Figure 1, IDENT 976). The fish were observed at an ATV crossing.

Add new Creek w/ Coho Salmon REARING
