Fishing History Has heavily fished in the past, but the size and numbers of grayling have gone down to the point where they are no longer fishing this lake.

Other Uses None

Fish Losses None

Character and size of watershed Rolling tundra hills.

Remarks This lake was stocked with rainbow trout this year on an experimental basis. Two net periods produced 12 grayling and 2 suckers.

(over)

Description of accessibility (how reached) At mile 155, there is a very good cat trail which leads to Gerrie Lake. Not fit for car travel at the present time because it has not been graveled.

Sketch: showing outline of lake, depth, prominent landmarks, inlets, outlet, weedbeds, public service site location, benchmark location, etc.
