Tex Smith Lake, Mile 161, Glen Hiway.

Rehabilitated.

Surface Area: 23 acres.

Public Access: A right-of-way has been deeded to the Department by Mr. Tex Smith. The area is usable with no further development.

Fish Stocked: 1956 - 6,000 steelhead
1957 - 12,000 rainbow

Fishing Success: Fair.

Fishing Pressure: Very moderate.

After rehabilitation Tex Smith Lake has provided only a fair fishery. The results have been consistent from year to year, but the numbers of trout provided for the anglers has not been up to that of some of the lakes. A contributing factor may very well be the lake's isolated position on the Glen Hiway.
