# LAKE SURVEY SUMMARY

LAKE Tundra Lake (also called 606 Lake)
(flows into Stink River)

MAP REF. Lime Hills T 13 N R 35 W S LAT. 61° 12' LONG. 155° 45'

LOC. In flats near Lime Hills, Lime Village & Sparrevohn AFS SURF. ELEV. 552'

1. SURF. ACRES 4 mi x 2½ mi MAX. DEPTH 8' AVG. DEPTH 6' ACRE FT.
SHOAL AREA 100% WATER COLOR dark SECCHI READING -
AQUATIC VEGETATION very abundant

2. FISH SPECIES: NATIVE BWF, S, NP INTRODUCED none

3. FISHING HISTORY Little subsistence activity from Lime Village people

4. INVERTEBRATES Abundant

5. INLETS Caribou Snare Creek and other small creeks DISCHARGE cfs
DISCHARGE cfs
DISCHARGE cfs
BARRIERS none

6. OUTLETS Stink River DISCHARGE cfs
DISCHARGE cfs
BARRIERS

7. SPAWNING AREAS

8. WATERSHED TYPE Muskeg, low black spruce birch forest DRAINAGE AREA ACRES

9. ACCESSIBILITY by float plane - snow machine in winter, portage from Lime Village

10. ACCESS STATUS

11. USE SITE none FACILITIES none

12. OTHER USE Native hunting, fishing lake

13. POLLUTION none

14. REMARKS 1½° temp 9°C Sept. 21. Two experimental gill nets set overnite took 7BWF(2 to 3 lbs) 420-505 mm - all spawners, 15, 11 NP 280-710 mm (½-6.5 lbs). Lake very shallow over much of area only 3-5' deep. Much grass around outer margin. Has tundra banks and a good outlet to Stink River (stony system). Little evidence of present subsistence use here but people capture these fish at Stink River mouth as this lake surely goes anoxic.
