[a] Fish were caught using fyke (Fyke) nets or variable mesh (VM) gillnets. CPUE = (number sampled / hrs. set x 60).
[b] Note: In 2009, ADF&G began sampling only fish >200mm for length and weight; in prior years fish 100mm or greater were sampled. Weight is in pounds and ounces; 1 lb 15.4 ozs = 1.15.4. To maintain consistency, the CPUE still includes all fish 100mm or greater.

COMMENTS: Chugach Estates Lake is stocked annually and is scheduled to be stocked with 500 rainbow trout fingerling in 2023-2027. Schools participating in the "Salmon in the Classroom" program will also stock coho salmon fry in the lake at the end of the school year.
