### EXPLANATION:

This emergency order establishes a bag and possession limit of four king salmon with no size limit in a terminal saltwater location near Juneau and in freshwater drainages crossed by the Juneau road system that are open to sport fishing. This emergency order also allows the use of bait, weighted hooks and lures, multiple hooks with gap between point and shank larger than one-half inch, and the retention of king salmon hooked elsewhere than in the mouth (snagged) in the fresh waters of Fish Creek Pond on Douglas Island. King salmon caught in these salt and fresh waters do not count toward the nonresident annual limit.

JUSTIFICATION

The Alaska Board of Fisheries authorized the department to use its emergency order authority to increase sport bag and possession limits and annual limits for hatchery king salmon in terminal harvest areas when escapement is expected to be in excess of the broodstock requirements. The Southeast King Salmon Management Plan authorizes the department to repeal the nonresident annual limit in hatchery terminal harvest areas. Hatchery king salmon surplus to broodstock needs are expected to return to the salt and fresh waters near Juneau, and over 500 of these fish are expected at Fish Creek on Douglas Island. Therefore, the department is increasing the king salmon bag and possession limits and repealing the nonresident annual limit in the salt and fresh waters of the Juneau area. In addition, the department is liberalizing methods and means in Fish Creek Pond.
