JUSTIFICATION: The Alaska Board of Fisheries authorized the department to use its emergency order authority to increase sport bag and possession limits and annual limits for hatchery king salmon in hatchery terminal harvest areas when escapement is expected to be in excess of the broodstock requirements. The Southeast King Salmon Management Plan authorizes the department to repeal the nonresident annual limit in hatchery terminal harvest areas. Hatchery king salmon surplus to broodstock needs are expected to return to the salt waters near Juneau. Therefore, the department is increasing the king salmon bag and possession limits and repealing the nonresident annual limit in the designated saltwater sport harvest area near Juneau. Southeast Alaska wild king salmon stocks are in a period of low production and conservative measures are in place to protect those fish. However, the timing of this liberalization and the location in a small area near the hatchery release sites means the incidence of wild stock harvest is low.

DISTRIBUTION: The distribution list for this emergency order is on file at the Region 1 office of the Alaska Department of Fish and Game, Division of Sport Fish, P.O. Box 110024, Juneau, AK 99811, (907) 465-4270.
