REGULATION:

JUSTIFICATION:

The Copper River personal use fishery is managed under direction of the *Copper River Personal Use Dip Net Salmon Fishery Management Plan* (5 AAC 77.591). The plan establishes the season from June 7 through September 30, and directs the department to establish weekly periods based on Miles Lake sonar counts. During July 2 – July 8, there were 125,563 salmon counted past the Miles Lake sonar. The preseason projection for this period was 51,985 salmon, which results in a surplus of 73,578 salmon. Copper River sockeye salmon migratory timing and the previous five-year average harvest and participation rates indicate sufficient numbers of salmon available to justify 84 hours of fishing time during the week of July 16 – July 22.
