

SPORT FISHING

Emergency Order

ALASKA DEPARTMENT
OF FISH & GAME

Under Authority of AS 16.05.060

Emergency Order No. 2-RS-8-25-20

Issued at: Anchorage, Monday, June 22, 2020

Effective Date 12:01 a.m. Wednesday, June 24, 2020

Expiration Date: 11:59 p.m. Friday, July 31, 2020,
unless superseded by subsequent emergency order.

EXPLANATION:

This emergency order opens the Resurrection River to sport fishing for salmon and increases the bag and possession limit for sockeye salmon from three to 12 fish in the freshwaters downstream from the Seward Highway and downstream from Nash Road to the saltwater markers. This emergency order also increases the bag and possession limit for sockeye salmon in the saltwaters of Resurrection Bay north of a point from Caines Head to the northern point of Thumbs Cove from six to 12 fish.

REGULATION:

The provisions of 5 AAC 56.122 (9)(D) and 5 AAC 58.022 (b)(3)(A)(ii) are superseded by this emergency order. Under this emergency order, the following provisions are effective 12:01 a.m. Wednesday, June 24 through 11:59 p.m. Friday, July 31, 2020:

5 AAC 56.122. Special provisions for the seasons, bag, possession, annual, and size limits, and methods and means for the Kenai Peninsula Area.

(9) Resurrection Bay drainages:

(D) notwithstanding (B) of this paragraph, the waters downstream from the Seward Highway and downstream from Nash Road are open to sport fishing for salmon, except king salmon, from June 24 – December 31; only single-hook, artificial lures may be used; the bag and possession limit is 12 salmon per day, of which only two may be coho salmon;

5 AAC 58.022. Waters; seasons; bag, possession, annual, and size limits; and special provisions for Cook Inlet – Resurrection Bay Saltwater Area.

(b)(3)(A) in the salt waters north of a line between Cape Resurrection and Aialik Cape (Resurrection Bay Terminal Harvest Area):

(ii) salmon, other than king salmon: bag and possession limit is six fish, of which six per day and in possession may be coho salmon; except that in the marine waters north of a line from Caines Head to the north point of Thumb Cove, the bag and possession limit for sockeye salmon is 12 fish;

Doug Vincent-Lang,
Commissioner

By delegation to:

Jay Baumer
Area Management Biologist

JUSTIFICATION:

Bear Lake sockeye salmon has a sustainable escapement goal (SEG) of 700 - 8,300 fish and is managed to pass 5,152 - 12,752 sockeye salmon past the weir at Bear Lake, which meets both the SEG and hatchery broodstock requirements. Through June 21, 2020, 11,543 sockeye salmon have passed the Bear Creek Weir, with fair numbers of sockeye salmon still entering the river. The upper end of the SEG has been exceeded and it is anticipated that the broodstock goal will be met. To provide additional sport fishing opportunity to harvest sockeye salmon surplus to the escapement goal and broodstock needs, as authorized in 5 AAC 75.003 (2)(A) and (B), increasing the bag and possession limit is warranted.

DISTRIBUTION:

The distribution list for this emergency order is on file at the Region II Office of Alaska Department of Fish and Game, Division of Sport Fish, 333 Raspberry Road, Anchorage, AK 99518, (907) 267-2218.
