### **JUSTIFICATION:**

ADF&G manages the Kasilof River early-run king salmon sport fishery to achieve a sustainable escapement goal (SEG) of 700–1,400 naturally-produced king salmon, measured at the Crooked Creek Hatchery weir. To reduce the harvest of Kasilof River king salmon in the personal use gillnet fishery at the mouth of the Kasilof River, the number of hours this fishery is open each day is being reduced from 17 hours per day to six hours per day, or from 11:00 a.m. until 5:00 p.m. daily.

On June 6, 2022, ADF&G issued Emergency Order 2-KS-1-23-22 restricting the sport fishery harvest of early-run Kasilof River king salmon to hatchery fish only and prohibiting the use of bait and multiple hooks, which was followed by Emergency Order 2-KS-1-26-22 on June 8 reducing the set gillnet fishing periods to 12 hours per a day. King salmon runs across Cook Inlet which provide indications of abundance for Kasilof River stocks have since not improved and further restrictions are necessary. On June 13, 2022, ADF&G issued Emergency Order 2-KS-1-30-22, closing the Kasilof River king salmon sport fishery to conserve naturally-produced king salmon in order to achieve the SEG. Therefore, it is warranted to further decrease the fishing time for the Kasilof River personal use gillnet salmon fishery.
