JUSTIFICATION:

As of August 12, 2022 a total of 1,058 coho salmon have been collected at the William Jack Hernandez Sport Fish Hatchery for broodstock. An additional 600 coho salmon were counted by foot survey immediately below the hatchery, in poor survey conditions. It is anticipated that the hatchery will meet the coho salmon broodstock goal and there is an adequate number of fish to spawn naturally in Ship Creek. Therefore, it is warranted to increase the coho salmon bag and possession limit in the Ship Creek fishery to provide additional sport fish harvest opportunity of surplus hatchery fish.

The distribution list for this emergency order is on file at the Region 2 Office of Alaska Department of Fish and Game, Division of Sport Fish, 333 Raspberry Road, Anchorage, AK 99518, (907) 267-2218.
