JUSTIFICATION:

The Chitina Subdistrict personal use salmon fishery is managed under direction of the *Copper River Personal Use Dip Net Salmon Fishery Management Plan* (5 AAC 77.591). The plan establishes the season from June 7 through September 30 and directs the department to establish fishing periods based on Miles Lake sonar counts. During June 20 – 26, there were 156,203 salmon counted past the Miles Lake sonar. The preseason projection for this period was 54,445 salmon, which results in a surplus of 101,758 salmon. Copper River sockeye salmon migratory timing and the previous five-year average harvest and participation rates indicate sufficient numbers of salmon available to allow 168 hours of fishing time during the week of July 4 – 10, an increase of 36 hours from the preseason schedule.
