**JUSTIFICATION:**

The Chitina Subdistrict personal use salmon fishery is managed under direction of the *Copper River Personal Use Dip Net Salmon Fishery Management Plan* (5 AAC 77.591). The plan establishes the season from June 7 through September 30 and directs the department to establish weekly periods based on Miles Lake sonar counts. During July 10 – 16, there were 136,460 salmon counted past the Miles Lake sonar. The preseason projection for this period is 35,819 salmon, resulting in a surplus of 100,641 salmon. Based on Copper River sockeye salmon migratory timing and the previous three-year average harvest and participation rates, there are sufficient numbers of salmon available to allow 168 hours of fishing time during the week of July 24 – 30, resulting in an increase of 36 hours from the preseason schedule.
