Alaska Board of Game Committee Meeting on Sheep Management November 2, 2015

Meeting Summary

The Board of Game Committee on Dall sheep management met via teleconference on November 2, 2015. All three committee members (Nate Turner, Stosh Hoffman, and Dave Brown.) were present. The meeting was facilitated by Dr. Alistair Bath.

Meeting materials and background information are available on the committee meeting website at: www.adfg.alaska.gov/index.cfm?adfg=sheepcomm.meetinginfo along with the meeting audio.

The purpose of the meeting was to discuss and select public members to serve on the Dall sheep working group. The board received an update on the organizations and advisory committees who have identified a representative to serve on the working group. The committee then discussed and agreed on a selection process for ranking the top ten applicants who met the criteria for membership that was decided on at the October 12, 2015 committee meeting. The committee moved to go into an executive session to discuss the applicants on the lists. After the conclusion of the executive session, the committee announced five names were on all three lists for meeting the membership criteria, and agreed these five individuals would be named to the working group: Joe Want, Lou Bradley, Dave Lorrington, Ed Soto, and Ivan Clark. Prior to adjourning, the committee clarified that all three board committee members would participate on the working group. The committee confirmed the first working group meeting will be held in Anchorage, December 5 and 6. The committee meeting adjourned at 12:25 pm.
