**Subject:** Recommendation for Roland Maw  
**Date:** Saturday, January 03, 2015 3:27:43 PM

---

The selection/appointment of Dr. Roland Maw would bring a scientist back to the commissioner's office. A phd. , a member of many boards, an executive director, an author of fourteen papers and many studies, a commercial fisherman for four decades, solid experience on the game side, his resume speaks volumes to the qualifications. Without reservation or hesitation I support Dr. Roland Maw as the best candidate with broad expertise in both fish and game management.

Sincerely,

John McCombs, Ninilchik, Alaska, @907-567-3334
