COPPER RIVER DISTRICT: The Copper River District will open to commercial salmon fishing for a 24-hour period from 7:00 a.m. Monday, July 8 to 7:00 a.m. Tuesday, July 9.

The grass bank marker line is defined in 5AAC 24.350(1)(A) with the exception of this year’s extension of the closure line across Little Softuk (see bold font below). This closure line is defined with the following points:

<table>
<thead>
<tr>
<th>Point</th>
<th>Latitude</th>
<th>Longitude</th>
</tr>
</thead>
<tbody>
<tr>
<td>Point Whitshed South</td>
<td>60° 26.49’ N.</td>
<td>145° 52.86’ W.</td>

</tbody>
</table>

Waters north of this line, within sloughs, and in Boswell Bay within the bay (5 AAC 24.350(1)(A)) are closed to commercial and subsistence salmon fishing during all periods.

During the commercial fishing season, subsistence harvest may occur in the Copper River District concurrent in time and area with commercial fishing periods until the Copper River District is closed at the end of the season. Additionally, waters of the Copper River District, including the Chinook salmon inside closure area, will open to subsistence fishing from 6:00 a.m. to 10:00 p.m. on all Saturdays between June 15 and October 31. Subsistence permits may be obtained at the Cordova ADF&G office during regular business hours (Monday – Friday, 8:00 a.m. – 12:00 p.m. and 1:00 p.m. – 5:00 p.m.). Subsistence permits are not available outside of regular office hours.

Cumulative sonar count through 7/5 is 746,324 fish whereas 472,780 fish are projected by this date. The 0600 count for 7/6 is 2,994 fish. For the week ending 7/6, the actual Copper River Delta survey count was 35,960 sockeye salmon versus an anticipated range of 28,229 – 66,722. Preliminary harvest estimate from the 24-hour period that started on Thursday, July 4 was 59,300 sockeye, 15,400 pink, and 78 Chinook salmon with 283 deliveries reported.

BERING RIVER DISTRICT: The Bering River District will open to commercial salmon fishing for a 24-hour period from 7:00 a.m. Monday, July 8 to 7:00 a.m. Tuesday, July 9. For the week ending
July 6, the actual Bering River District survey count was 15,400 sockeye salmon versus an anticipated range of 11,015 – 24,232.

**COGHILL DISTRICT:** The Coghill District, excluding Bettles Bay Subdistrict, Granite Bay Subdistrict, the Esther Subdistrict, and the WNH THA and SHA, will remain open to commercial salmon fishing for an additional **12 hours**, from 8:00 a.m. to 8:00 p.m., Sunday, July 7. The Coghill District, excluding Bettles Bay Subdistrict, Granite Bay Subdistrict, the Esther Subdistrict, and the WNH THA and SHA, will open to commercial drift gillnet harvest for a **36-hour** period starting at 8:00 am on Monday, July 8. As of July 5, 13,512 sockeye salmon had passed the Coghill River weir versus a minimum cumulative anticipated of 10,152 fish.

**ESHAMY DISTRICT:** The Eshamy District, excluding the Main Bay Subdistrict, will open to commercial gillnet harvest for a **24-hour** period starting at 8:00 am on Monday, July 8. The Main Bay Subdistrict will open to commercial gillnet harvest for a **36-hour** period starting at 8:00 am on Monday, July 8. The AGZ will open to DRIFT GILLNET permit holders only during this fishing period. Preliminary harvest estimate from the 24-hour period that started on Friday, July 5 is not yet available.

**MONTAGUE DISTRICT:** The Port Chalmers Subdistrict will open to commercial drift gillnet fishing for a **60-hour** period starting at 8:00 am on Monday, July 8 with an additional **84-hour** period beginning at 8:00 am on Thursday, July 11. A regular schedule of two fishing periods per week is anticipated to remain in effect until further notice. The western boundary of the Port Chalmers Subdistrict is defined by lines from 60°20.00’N., 147°26.59’W. to 60°14.75’N., 147°35.35’W. to 60°02.50’N., 147°44.41’W. **Regulatory closed waters and anadromous stream closures within the Port Chalmers Subdistrict will not be in effect until further notice.** Preliminary harvest estimate from the 60-hour period that started on Monday, July 1 was 85,400 chum salmon with 153 deliveries reported.

**UNAKWIK DISTRICT:** The Unakwik District will open to commercial drift gillnet and purse seine harvest for a **36-hour** period starting at 8:00 am on Monday, July 8.

**SEINE FISHERIES:** An estimated 2.3 million pink salmon were harvested in eastern PWS on Friday, July 5. The cumulative PWS pink salmon harvest in the Eastern District through July 6 is estimated at 2.6 million CPF and 1.2 million VFDA cost recovery fish, for a total of 3.8 million fish. The 5-year odd-year average (2009–2017) cumulative PWS pink salmon harvest (cost recovery and CPF fish) through July 6 is 3.8 million fish.

An aerial survey of the Southeastern District was flown on Friday, July 5 and indicated that pink salmon escapements are within expected ranges for the date and chum salmon escapements are below expected ranges for the date. Aerial surveys of all districts are ongoing to further assess the strength of wild stock returns throughout PWS. The first aerial survey of the Coghill and Northwestern districts is scheduled for Saturday, July 6. The next aerial survey of Eastern and Northern districts is scheduled for Monday, July 8. **The department does not anticipate that these stocks will sustain a consistent schedule of openings at this time.**

**EASTERN DISTRICT:** Waters of the Eastern District, north of 60°57.00’ N., will open to commercial purse seine fishing for a 14-hour period, from 6:00 am until 8:00 pm, on Sunday, July 7.

Waters of Port Valdez east of 146°30.62’ W. will be closed to commercial fishing during this period.
Regulatory closed waters and anadromous stream closures north of a line from Potato Point to Entrance Point will not be in effect during this fishing period.

Waters inside of the following Eastern District Salmon Harvest Task Force (SHTF) markers will be CLOSED for these periods to ensure early season escapement:

(1) **Galena Bay**: east of a line from a shore marker at approximately 60°56.87’ N. lat., 146°39.87’ W. long. to a shore marker at approximately 60°56.55’ N. lat., 146°39.65’ W. long.;

(2) **Jack Bay**: south and east of a line from a shore marker at approximately 61°02.34’ N. lat., 146°35.27’ W. long. to a shore marker at approximately 61°02.17’ N. lat., 146°39.77’ W. long.;

(3) **Sawmill Bay**: north of a line from a shore marker at approximately 61°02.71’ N. lat., 146°46.44’ W. long. to a shore marker at approximately 61°02.58’ N. lat., 146°47.07’ W. long.

**SOUTHWESTERN DISTRICT**: The AFK Hatchery THA and SHA will open to purse seine fishing for a 36-hour period at 8:00 am on Monday, July 8. **Anadromous stream closures within the AFK Hatchery THA and SHA will not be in effect until further notice.** Preliminary harvest estimate from the 36-hour period that started on Thursday, July 4 was 18,100 chum and 223 sockeye salmon with 15 deliveries reported.

Copies of the updated regulation booklet, *2019–2021 Commercial Salmon Fishing Regulations for Prince William Sound*, are available in the Cordova ADFG office.

**The next scheduled seine fisheries announcement is anticipated to be at 2:00 p.m. Sunday, July 7.**

**The next scheduled salmon fisheries announcement is anticipated to be at 2:00 p.m. Wednesday, July 3.**

Announcement recordings are available for **gillnet fisheries at 907-424-7535 and seine fisheries at 907-424-7345. In addition, announcement recordings are available in Anchorage at 267-2843.**

Additionally, announcements, inseason harvest data, and escapement data are available at the following web address: [http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareapws.main](http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareapws.main) (Prince William Sound and Copper River homepage).

Unless otherwise specified, all openings are clock openings based on Alaska Daylight Time, which is based on Coordinated Universal Time and may be obtained by calling 303-499-7111.

The department encourages commercial permit holders to renew their licenses early and to check their CFEC vessel registration stickers to make sure they are current.

The department also encourages permit holders to report observed violations to Wildlife Safeguard at 800-478-3377. Reports are anonymous and cash rewards may be paid for successful prosecution of violations.

PWS commercial fishers are reminded that area fisheries often necessitate fishing in close proximity to marine mammals. Under the Marine Mammals Protection Act (MMPA), the PWS drift gillnet fishery is classified as a Category II fishery. Participants in Category I and II fisheries must be registered in the Marine Mammal Avoidance Program (MMAP) to be authorized for lawful incidental, but not
intentional, marine mammal takes during fishing. However, this authorization explicitly does not exempt holders of commercial fishing permits from the MMPA prohibition on takes of marine mammals listed as endangered or threatened under the Endangered Species Act. As a participant in the PWS drift gillnet fishery, you are automatically registered in the Marine Mammal Authorization Program (MMAP) by the National Marine Fisheries Service (NMFS). As a participant in a Category II fishery, you must:

• Maintain an MMAP Authorization Certificate, or a photocopy, on board the vessel while engaging in any of the fisheries identified on the reverse side of the certificate. For non-vessel or set net fisheries, the enclosed Certificate, or a photocopy, must be in the possession of the permit holder during fishing operations. This Certificate, in combination with a current, valid state or Federal fishing permit, will serve as your authorization to incidentally take non-endangered or non-threatened marine mammals in the course of commercial fishing operations.

• Report all injuries and mortalities of marine mammals within 48 hours of returning from the trip during which these takes occurred using the MMAP Mortality/Injury Reporting Form (https://www.fisheries.noaa.gov/webdam/download/75366778).

• If so requested, take an observer aboard your vessel.

Purse seine and set gillnet gear are classified as a Category III fisheries under the MMPA. Category III fishery participants are automatically exempted from the incidental take prohibition in the MMPA. Therefore, you do not need to maintain the MMAP certificate aboard your vessel, but must report any incidental takes of marine mammals within 48 hours of the incident or your return to port. Such reports must be made on the Marine Mammals Authorization Program Mortality/Injury Reporting Form.

Because some marine mammals are also listed under the Endangered Species Act, incidental takes are also regulated under that act and are not authorized. All MMPA category fisheries are liable for incidentally taking ESA listed species.

Please reference https://www.fisheries.noaa.gov/alaska/endangered-species-conservation/endangered-threatened-and-candidate-species-alaska for a list of marine mammals currently listed under the ESA (you should periodically check with the National Marine Fisheries Service for any changes in listed species).

Under the ESA, “take” means to “harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct.” (16U.S.C. 1532(19)); and “harass” means an “intentional or negligent act or omission which creates the likelihood of injury to the wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering.” (50 C.F.R. 17.3).

To reduce the possibility of incidentally taking an ESA listed species and its associated liability ADF&G recommends that:

• Fishermen participating in area fisheries remain vigilant in monitoring gear when marine mammals may be present.
• Fishermen use avoidance measures (e.g., not fishing or relocating fishing activities when marine mammals are present or likely to be present) to minimize interactions with marine mammals.
• Avoid fishing in areas where marine mammals are likely to be present at night or when visibility or weather conditions make it difficult to spot marine mammals.

For further questions concerning marine mammal regulations call NOAA at 907-586-7221.
