Lower Cook Inlet Salmon Fishery News Release #18

SOUTHERN DISTRICT: personal use: Beginning at 6:00 AM on Monday, August 19, the Kachemak Bay Personal Use Set Gillnet Fishery will open on a schedule of 48-hour fishing periods from 6:00 AM Mondays to 6:00 AM Wednesdays and from 6:00 AM Thursdays to 6:00 AM Saturdays until the guideline harvest range of 1,000 – 2,000 coho salmon is achieved. The possession limit is 25 salmon for the head of a household and 10 salmon for each additional dependent. Daily reporting of harvest is requested.

Participants in this fishery must be Alaska residents, have a current sport fishing license, and also have a permit for this specific fishery. These permits are issued from the Homer ADF&G office and are available during normal business hours. Participants in this fishery are requested to report daily catches to the Homer ADF&G office at 235-8191, or 235-1738 during evenings and weekends. Permit holders are also requested to remain on site while set gillnet gear is in operation. Unattended gear may be confiscated if the permit holder cannot be located. Persons who are not residents of Alaska may not assist in the operation of personal use fishing gear and may not handle personal use caught fish at the fishing site. A person may not possess salmon taken under a personal use salmon fishing permit unless both tips of the tail fin have been removed (Figure 1). Personal use set gillnets may not exceed 35 fathoms in length. Further regulations that define this fishery (5 AAC 77.549) may be found on page 129 of the 2019-2020 Subsistence and Personal Use Statewide Fisheries Regulations. Regulations that define legal personal use fishing gear may be found in 5 AAC 77.010 on page 112 of this book. Waters closed to personal use fishing are listed in 5 AAC 77.549 and a subset of 5AAC 21.350 and include waters at the head of Kachemak Bay northeast of a line from Swift Creek to Chugachik Island, all waters of China Poot Bay inshore of the HEA powerlines, waters of Sadie Cove south of 59°30’ N. lat. as well as any bay or estuary less than 300 feet in width at mean low tide as well as within 500 yards of the terminus of streams and rivers (Figure 2). Further restrictions may be found in the 5AAC 21.350 Closed Waters section of the commercial fishing reg book. Fishing is also prohibited in the Mud Bay area and in the area of the Homer Spit near the fishing lagoon and the Homer Harbor (Figure 3).

Figure 1.- All salmon taken under the authority of a personal use permit must have both lobes of caudal (tail) fin removed from the salmon before the fish is concealed from plain view or transported from the fishing site.
