**Saint Matthew Island Section Blue King Crab
Season Closed**

The Alaska Department of Fish and Game (ADF&G) and National Marine Fisheries Service (NMFS) have completed analysis of 2019 NMFS trawl survey results for Saint Matthew Island Section blue king crab. The stock is estimated below the federal minimum stock size threshold and consequently has been declared overfished. In addition, the 2019 estimate of mature male abundance is below the minimum regulatory threshold necessary for a fishery opening. Therefore, Saint Matthew Island Section blue king crab will remain closed for the 2019/20 season.
