**SITKA SOUND HERRING FISHERY ANNOUNCEMENT**

The Sitka Sound herring sac roe fishery opened at 9:45 a.m. today and will close by field announcement on marine VHF radio. Open areas for this fishery include the waters south of 57°02.88' N lat, north of 57°01.95' N lat, west of 135°16.61' W long, and east of 135°20.21' W long, and the waters south of 57°00.81' N lat and east of 135°21.93' W long.

The attached map shows the boundaries for a Sitka Sound herring sac roe fishery opening as initially announced at approximately 8:45 a.m. on this date by field announcement on marine VHF radio. This map is for informational purposes only and is subject to change at any time by subsequent field announcement. Any boundary changes made by subsequent field announcement will not be published in fishery updates on this date.

The department has determined that the opening described above would not harm a reasonable opportunity for participants in the subsistence fishery to harvest the amount of roe necessary for subsistence uses. When making this determination, the department considered: 1) while a comprehensive vessel survey was not conducted north of Watson Point this morning, numerous large schools of herring were observed in the regulatory closed waters extending from Eliason Harbor to Makhnati Island, near Whiting Harbor, furthermore, large schools of herring have been observed within and adjacent to the regulatory closed waters during the past several surveys of this area; 2) there were no know subsistence branch sets and there was no herring spawn observed in the water on the adjacent shoreline of the open area.

Under Alaska's Health Advisories 1, 2, 3, and 4, commercial fishing is an Essential Business and is part of Alaska's Essential Services and Critical Infrastructure. Commercial fishermen should ensure that all travel and other activities in support of commercial fishing operations follow protocols in Alaska COVID-19 Health Advisories. COVID-19 Health Advisories may be found here: <https://covid19.alaska.gov/health-advisories/>.
