Little Softuk	60° 13.16' N.	144° 41.38' W.

Waters north of this line, within sloughs, and in Boswell Bay within the bay (5 AAC 24.350 (1)(A)) are closed to commercial and subsistence salmon fishing during all periods.

During the commercial fishing season, subsistence harvest may occur in the Copper River District concurrent in time and area with commercial fishing periods until the Copper River District is closed at the end of the season. Additionally, waters of the Copper River District, excluding the expanded Chinook salmon inside closure area, will open to subsistence fishing from 6:00 am to 10:00 pm on all Saturdays between May 17 and October 31. Prince William Sound Management Area salmon subsistence permits may be obtained through any ADF&G office or online (<https://www.adfg.alaska.gov/Store/>). **In Cordova, permits will be available during normal business hours Monday through Friday from 8:00 a.m. to 12:00 p.m. and 1:00 p.m. to 5:00 p.m.** ADF&G staff will not be available to issue permits before hours, after hours, on state holidays, or on weekends. **Permit holders are encouraged to call the Cordova office at 907-424-3212 or report online (<https://www.adfg.alaska.gov/Harvest/>) to provide preliminary harvest reports to assist with inseason harvest tracking.**

Cumulative sonar count through 5/18 is 190 fish whereas 2,867 fish are projected by this date. The 0600 count for 5/19 is 24 fish. Only the north bank sonar has been deployed so far this season. Shore ice is currently preventing south bank sonar deployment. Preliminary harvest estimate from the 12-hour period that occurred on Monday, May 17 was 1,960 Chinook and 8,200 sockeye salmon with 399 deliveries reported. This compares to a projected harvest of 27,100 sockeye salmon for this period. The Prince William Sound Science Center's Lower Copper River Sonar Station is operational near the mouth of Clear Martin River on the lower east side of the Copper River (60° 22.48' N., 144° 53.68' W.) and fish passage summaries can be viewed at <https://pwssc.org/2020-lower-copper-sonar/>.

BERING RIVER DISTRICT: Bering River District, west of a longitude line at 144° 28.20' W., will open at 7:00 am on Thursday, May 20 for a 12-hour commercial drift gillnet fishing period. The intent of this opening is to target Copper River sockeye salmon that are traveling through the western portion of this district. **As overlap with the Bering River sockeye salmon run timing increases, the likelihood of future early season opening in the Bering River District will diminish. Additionally, future openings of the Bering River District will be contingent on accurate reporting of harvest from within this district.**

COGHILL DISTRICT: The Coghill District, excluding the Esther Subdistrict and the Wally Noerenberg Hatchery (WNH) THA and SHA, will open for the 2021 season to commercial drift gillnet harvest for a 36-hour fishing period starting at 8:00 am on Monday, May 31. A total run of 1.68 million WNH chum salmon are projected to return to the hatchery. Historical harvest timing for these chum salmon is from June 1 – July 27.

PWSAC requests that the Esther Subdistrict and the WNH SHA and THA remain closed for the entirety of the 36-hour commercial fishing period commencing on Monday, May 31. Cost recovery harvests will commence at WNH as run entry and hatchery escapement warrants. **In response to COVID-19, all PWSAC facilities are closed to the public until further notice.**

A total of 252,000 Coghill Lake sockeye salmon are projected to be available for common property harvest. The harvest timing for these sockeye salmon is from June 1 – August 1. The Coghill River weir is expected to start operations during the second week of June.

ESHAMY DISTRICT: The Eshamy District, excluding the Main Bay Subdistrict and Main Bay Hatchery (MBH) THA, SHA, and AGZ, will open for the 2021 season to commercial gillnet harvest for a 36-hour period starting at 8:00 am on Monday, May 31. The 2021 sockeye salmon run to MBH is forecast to be 1.08 million fish. The historical harvest timing for these sockeye salmon is from June 1 – August 1.

PWSAC requests that the Main Bay Subdistrict remain closed for the entirety of the 36-hour commercial fishing period commencing on Monday, May 31. Cost recovery harvests will commence at MBH as run entry and hatchery escapement warrants. **In response to COVID-19, all PWSAC facilities are closed to the public until further notice.**

MONTAGUE DISTRICT: The Port Chalmers Subdistrict, **east of Green Island, north of a line from 60° 9.52'N., 147° 22.38'W. to 60° 13.58'N., 147° 29.29'W. and south of a line from 60° 18.22'N., 147° 20.46'W to 60° 20.00'N., 147°13.25'W.,** will open for the 2021 season to purse seine fishing for 48 hours beginning at 8:00 am on Monday, May 31 with additional 36-hour periods at 8:00 am on Thursday, June 3, and 8:00 am on Saturday June 5. A regular schedule of three fishing periods per week is anticipated to remain in effect until further notice. **Regulatory closed waters and anadromous stream closures within the Port Chalmers Subdistrict will not be in effect until further notice.** A total of 320,000 chum salmon are forecast to return to Port Chalmers Subdistrict.

SOUTHWESTERN DISTRICT: The AFK Hatchery THA and SHA will open to purse seine fishing for 48 hours beginning at 8:00 am on Monday, May 31 with additional 36-hour periods at 8:00 am on Thursday, June 3, and 8:00 am on Saturday June 5. A regular schedule of three fishing periods per week is anticipated to remain in effect until further notice. **Anadromous stream closures within the AFK Hatchery THA and SHA will not be in effect until further notice.** A total of 150,000 chum salmon are forecast to return to AFK Hatchery.
