CLOSED WATERS

Closed waters in the winter troll fishery are specified in 5 AAC 29.080 (b). The winter troll fishery is excluded from the provisions of 5 AAC 29.150 (a)(1), which closes waters within 500 yards of the terminus of any salmon stream, except as specified in 5 AAC 29.080 (b). The following areas are closed to salmon trolling during the winter troll fishery as provided in 5 AAC 29.080 (b) and by emergency order in accordance with Chilkat and King Salmon Rivers action plan:

1. **District 1:** waters of Behm Canal in Section 1-D between a line from Nose Point to Snail Point and a line from Cactus Point to Point Eva are closed.
2. **District 8:** waters west of the Stikine River inside a line from Babbler Point to Hour Point, along the shore of Wrangell Island to Point Highfield to the southernmost tip of Liesnoi Island to the southernmost tip of Greys Island to the small island near the eastern entrance of Blind Slough, to the nearest point of Mitkof Island, to the prominent point of Mitkof Island nearest Coney Island, to the northernmost tip of Coney Island, to a point 500 yards north of Japanese Creek on the mainland shore are closed.
3. **District 11:** waters in Section 11-A east of a line from Outer Point to Point Louisa and north and west of a line from Salisbury Point to Point Tantallon (including the waters of Gastineau Channel) are closed.
4. **District 15:**
 - A. Section 15-A: waters north of the latitude of Sherman Rock at 58°51.00' N lat, are closed through December 31, 2021.
 - B. Section 15-B: waters of Berners Bay east of a line from Point St. Mary at 58°43.93' N lat, 135°01.43' W long to Point Bridget at 58°40.73' N lat, 134°59.25' W long are closed.

Except for those areas specified in this section, all remaining waters listed in the 5 AAC 29.150 Closed Waters section of the regulation book are open to trolling during the winter troll season.

TERMINAL HARVEST AREAS

As previously announced, the Anita Bay (open to all salmon species) and Nakat Inlet (open to all salmon species except Chinook) terminal harvest areas (THA) will be open to trolling through November 10. Chinook salmon retention is permitted in the waters of THAs and special harvest areas (SHA) once they have closed and cease to function as THA/SHAs and are then included as waters open during the traditional winter troll fishery.

LANDING REQUIREMENTS

Fish tickets must be submitted to the nearest Alaska Department of Fish and Game (ADF&G) office or postmarked for mailing within seven days after the fish are offloaded from the vessel. Fish tickets may be mailed directly to troll management at the Sitka ADF&G office. All salmon harvested in the summer troll fishery must be offloaded prior to participating in the winter troll fishery. In addition to the reporting requirements specified in 5 AAC 39.130, trollers and processors are required to record a 5-digit statistical area for salmon and the corresponding 6-digit statistical area for groundfish bycatch reported on fish tickets, as well as start and end date fished and date of landing. If multiple statistical areas were fished, the percentage of harvest by area should be included in the statistical area worksheet.

The 2021–2022 *Winter Troll Fishery Management Plan* will be available in all ADF&G area offices and on the troll fishery website at https://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareasoutheast.salmon_trollwinter, during the week of October 3.

The Emergency Order corresponding with this announcement is EO 1S7321.
