### Prince William Sound Salmon Fishery Announcement #53

**SEINE FISHERIES:** Seine fisheries will be closed to evaluate fisheries performance data. PWSAC cost recovery fishing is ongoing and they collected approximately 84% of the assigned pink salmon revenue goal. Industry sampling of fish harvested from AFK and CCH on August 12 was 42% and 28% female, respectively. On the ground sampling of fish harvested from WNH on August 13 was 48% female. Broodstock collection is occurring at both AFK and WNH.

Future fishing opportunities targeting PWSAC pink salmon are dependent on run entry, cost recovery progress, and broodstock collection. To minimize the risk of negatively impacting broodstock collection, if and when there is an opener, it may be short in duration (< 12 hours) with limited area. The Department will announce daily through Wednesday, to provide the fleet with up-to-date information pertaining to a potential opener targeting surplus PWSAC fish.
