**SOUTHEAST ALASKA SHRIMP BEAM TRAWL FISHERY**

The GHF for the fourth commercial beam trawl shrimp fishing period beginning November 1, 2023, is 250,000 lb in District 8, in accordance with the preseason GHF advisory announcement. This announcement is delayed to accurately reflect harvest and rollover any remaining GHF from the previous fishing period.

Preliminary harvest for the third fishing period in District 8 was 19,000 lb of the 250,000 lb GHF. This rollover poundage will bring the fourth fishing period GHF to the upper end of the guideline harvest range (GHR) at 250,000 lb. In District 8 to date, spot shrimp bycatch harvest is 995 lb and coonstripe shrimp bycatch harvest is 168 lb.

There has been no harvest to date for the third fishing period in District 6.
