Extension of Commercial Tanner Crab Fishing Hours in the Southeast Section of the Kodiak District

Emergency Order 4-S-07-25

The daily fishing period for the commercial Tanner crab fishery in the Southeast Section of the Kodiak District will be extended to 24 hours per day effective 5:59 p.m. February 1, 2025. Based on the department's assessment of effort and manageability of the fishery, restricting harvest to the hours of 8:00 a.m. to 5:59 p.m. is no longer warranted.

As previously announced:

State waters (0–3 nmi offshore) of the Southeast Section of the Kodiak District closed to commercial Tanner crab fishing at 5:59 p.m. January 25, 2025. Federal waters (3–200 nmi offshore) of the Southeast Section will remain open until further notice.
