2025 SOUTHEAST ALASKA COMMERCIAL TANNER CRAB FISHING SEASON

The 2025 Board of Fisheries (BOF) proposals that were adopted by the board during the shellfish BOF meeting **will not apply to this season, awaiting final approval**. The Tanner crab and golden king crab fisheries will open concurrently **Monday, February 17, 2025, at 12:00 noon**.

The Registration Area A (Southeast Alaska) Tanner crab harvest strategy [5 AAC 35.113] establishes commercial Tanner crab fishing season length using estimated mature male biomass and the number of registered pots at the start of the fishery. As of 4:30 p.m. Sunday, February 16, 2025, there are 58 pot vessels and 4,620 pots registered for the 2025 commercial Tanner crab fishery. At the current estimated mature male biomass and effort level of 4,620 registered pots, the harvest strategy provides **one additional day** of season length in “core”, “non-core”, and “inside exploratory” areas. The 2025 commercial Tanner crab fishery in Southeast Alaska will open in “core”, “non-core”, “inside exploratory”, and “outside exploratory” areas (described in 5 AAC 35.113(c)) **Monday, February 17, 2025, at 12:00 noon**. The season will close in “core” fishing areas after six fishing days **Sunday, February 23, 2025, at 12:00 noon**; the non-core, inside exploratory areas, and outside exploratory areas will remain open for an additional five days; and after the non-core areas close to fishing on **Friday, February 28, 2025, at 12:00 noon**, the inside exploratory areas and outside exploratory areas will remain open for an additional fourteen days; following the closure of inside exploratory areas to fishing **Friday, March 14, 2025 at 12:00 noon**, the outside exploratory areas will remain open through **Monday, March 31, 2025, at 11:59 p.m.**

Shellfish management staff will be available in Douglas and Petersburg for permit holders during the duration of the Tanner crab fishery, including the first two weekends in an “on-call” capacity. For assistance during the first two weekends of the Tanner crab fishery please contact shellfish staff in Petersburg or Douglas at the following phone numbers:
