https://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareasoutheast.salmon_trollspring.

The 2025 Spring Troll Management Plan will be published in May and an advisory announcement and map package describing THA troll fisheries will be issued at a later date, with THA openings beginning as early as June 1.

----------------------	-----------------

Weekly troll openings will be announced by advisory announcement each Friday, starting May 9; open fishing periods may be extended by emergency order based on inseason assessment of coded wire tag data. Spring troll fishery openings begin at 12:01 a.m. and close at 11:59 p.m. The Bucareli Bay, Trocadero Bay, San Alberto Bay, and Port Saint Nicholas spring troll areas will open initially during the week of May 11. The Redoubt Bay Area will open initially the week of May 18. The Western Channel, Goddard, and West Crawfish Inlet spring troll areas will open initially during the week of May 25, and the Mountain Point and Rock Point spring troll areas will open on June 8. The Homeshore, Cross Sound, South Passage, and Keku Strait hatchery chum salmon areas will open on June 15, and the Northern Chatham Strait and Point Couverden hatchery chum salmon areas will open on June 16. **Chinook salmon retention is prohibited in the hatchery chum salmon fisheries.**

It is extremely important to segregate fish harvested in different fishery areas so that department personnel can collect accurate dockside sampling information. If salmon are harvested in multiple areas during a spring troll fishing trip, the vessel operator is **required to keep fish harvested in each spring fishery separate** from any other fish on board the vessel. Similarly, the fish buyer is **required to create a separate fish ticket for each fishery area** that documents the dates fished, number of salmon, fishery name, and salmon statistical area number for each area fished (5 AAC 29.090[k]). Fish tickets must be submitted to ADF&G not later than 7 days after the landing.

Permit holders are reminded that the lingcod season is closed through May 15 and **retention of lingcod bycatch in the salmon troll fishery is prohibited until May 16.** For information on groundfish bycatch allowances in the spring troll fishery, permit holders should refer to the “Groundfish Bycatch in the 2025 Salmon Troll Fishery” advisory announcement issued on January 2, 2025, or contact Groundfish Staff in Sitka at 907-747-6688.
