Weekly troll openings will be announced by advisory announcement each Friday; open fishing periods may be extended by emergency order based on inseason assessment of coded wire tag data. Spring troll fishery openings begin at 12:01 a.m. and close at 11:59 p.m. Trollers are reminded that **Chinook salmon retention is prohibited in hatchery chum salmon fisheries**

It is extremely important to segregate fish harvested in different fishery areas so that department personnel can collect accurate dockside sampling information. If salmon are harvested in multiple areas during a spring troll fishing trip, the vessel operator is **required to keep fish harvested in each spring fishery separate** from any other fish on board the vessel. Similarly, the fish buyer is **required to create a separate fish ticket for each fishery area** that documents the dates fished, number of salmon, fishery name, and salmon statistical area number for each area fished (5 AAC 29.090[k]). Fish tickets must be submitted to ADF&G not later than 7 days after the landing.

THA troll openings will occur as follows, unless closed by emergency order. Opening and closing times vary by area, **refer to the appropriate THA advisory announcements for fishery details and cost recovery closure dates**. Chinook salmon retention is prohibited during the month of June in the Nakat Inlet, Neets Bay, and Thomas Bay THAs; however, Chinook salmon retention is permitted in Nakat Inlet and Thomas Bay THAs during general summer troll Chinook salmon retention periods established under 5 AAC 29.100.
