Fishermen and processors are reminded that all salmon, including steelhead, commercially harvested but retained for personal use and not sold, must be reported on fish tickets at the time of delivery.

All Chinook salmon harvested in the commercial drift gillnet fisheries may be retained and sold. Chinook salmon less than 28 inches in length and those of Alaska hatchery origin will not be counted against Southeast Alaska's all gear harvest limit of the Pacific Salmon Treaty. Therefore, fishermen and tenders are requested to keep Chinook salmon harvested in THAs separate from those harvested in traditional fishing areas. Separating these harvests will allow for better accounting of harvests and assist in sampling the harvests to identify Alaska hatchery-produced Chinook salmon.

The **ADF&G interactive map** where districts, sections, closed waters as well as other features used in the management of commercial salmon fisheries can be viewed, has been updated with recent changes from the Alaska Board of Fisheries and descriptions of THAs have been added. This map is available on the ADF&G website at: <https://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareasoutheast.salmon#maps>. Geographic information system data used to make the map is also available for download at: <https://www.adfg.alaska.gov/index.cfm?adfg=cfnews.main>.

2025 management plans and action plans are posted online at:

State offices will be closed Thursday, June 19, 2025, for the Juneteenth Day holiday.

The next gillnet announcement will be issued on **Thursday, June 26, 2025**.

The Emergency Order corresponding to this announcement is EO 1S1325.
