All Chinook salmon harvested in the Deep Inlet THA must be retained and may be sold. For all other fishing areas, Chinook salmon 28 inches or greater in length may NOT be retained and Chinook salmon less than 28 inches may be retained but not sold. These restrictions may be in effect until at least the third week of July.

In areas under nonretention of Chinook salmon 28 inches or larger, purse seine fishermen are encouraged to quickly release Chinook salmon in a manner that minimizes mortality. If Chinook salmon greater than 28 inches (large) are retained, the fisherman is in violation and may be issued a citation. Retained large Chinook salmon will be donated, and the fisherman may be subject to the cost associated with processing the fish for donation. On the fish ticket, the number and weight of the fish must be recorded and the disposition code "86-Donated" must be used.

Fishermen, tenders, and processors are reminded that all salmon, including steelhead, commercially harvested but retained for personal use and not sold, must be reported on fish tickets at the time of delivery.
