### 2025 HAWK INLET SALMON PURSE SEINE TEST FISHERY UPDATE # 4

The *F/V Osprey* conducted the fourth, and final, Hawk Inlet shoreline test fishery of the season on Friday, July 18. Comparing the daily harvests to the recent 10-year average harvests on or around this date, sockeye and chum salmon harvests were above average while coho and pink salmon harvests were below average. Chum salmon harvest was 145% of average, sockeye salmon harvest was 126% of average, and pink salmon harvest was 15% of average.

The pink salmon sex ratio was 55% male, exactly the average for previous year's test fisheries conducted on or around this date.
